Dear article

in the last N.Y. Independent
on the Colonization Society is
found so timely. The last spirit of
the Society will not die until
the Society itself shall die.

About the day I read your
article I rec'd a letter from that
great man J. F. Harrison of
Burgin urging me to help the Col.
Society. He had then commenced
the Society to me. He put me the
enclosed letter from Mr. Coppinger.
There two lines in the margin were in
it when I rec'd it. See what a good
foolhead this Coppinger tells of the Col.
Society. See too how firm the fellow is in

the best sentence of his letter. You
can keep his letter & quote from
it at your pleasure on any
occasion -
